1-Mar-2027

## Restrictions

Not applicable.

Executive Director/CEO

Product review is conducted according to the policies in the current *OMRI Policy Manual*® and based on the standards in the current *OMRI Standards Manual*®. This certificate may be out of date. Verify the current certificate online at [OMRI.org](http://OMRI.org), or contact OMRI for verification. OMRI listing is not equivalent to organic certification and is not a product endorsement, and cannot be construed as such. Final decisions on the acceptability of a product for use in a certified organic system are the responsibility of a USDA accredited certification agent. It is the operator's responsibility to properly use the product, including following any restrictions.

**Attestations :** none

Product	Category	Product compliant with Regulation	Further information
Liquid Squid 2-2-2	Fertilizer and Amendment	Allowed under Canadian regulation COR (Canadian Organic Regulation)	
Squid Hydrolysate 2-2-2	Fertilizer and Amendment	Allowed under American regulation NOP (National Organic Program)	

**IMPORTANT INFORMATION:**

[www.inputs.bio](http://www.inputs.bio) website lists the inputs voluntarily submitted to Ecocert SAS by the manufacturer or distributor, in order to allow a non-mandatory checking of their eligibility as ?Suitable for Organic Farming?, via our **Inputs Documentary Review** service or our **Inputs Attestation** service.

The fact that an input is not/no longer included in this list does not mean, per se, that this input is/is no longer Suitable for Organic Agriculture, as this claim remains under the sole responsibility of the company which hold the marketing authorisation (manufacturer or distributor).

Furthermore, inputs which must be certified according to the Organic Agriculture regulations are not available in this list. We invite you to consult the certificates issued by the related certification bodies. For inputs certified according to regulations (EU) no. 2018/848 by Ecocert France SAS (FR-BIO-01, approved by the [INAO](#)): <http://certificat.ecocert.com/index.php?l=en>

Please double-check that the designated product is listed as compliant with relevant certification standard for your operation (i.e. column: « Product compliant with Regulation »).

For example, an input whose status is "Allowed under American regulation NOP (National Organic Program). May be used if not commercially available as Organic" shall be considered as conform only in accordance with the NOP regulation and subject to the unavailability of the same product certified organic NOP. This product could not, for example, be considered to comply with the European organic regulation.
